Subject Index

- Abdominal aortic aneurysm, 129
- Adrenal vein catheterization, 86
- Analgesics in angiography, 247
- Anesthesia, in angiography, 247
- Aneurysm,
 - , aberrant right subclavian artery, 13
 - , aortic,
 - , —, CT, 84
 - , —, ruptured with aortocaval fistula, 24
 - , aortic annular, MRI, 188
 - , mesenteric vein, CT and ultrasound, 269
 - , mycotic, coil embolization, 198
 - , ovarian vein, 100
 - , subclavian artery, embolization, 134
- Angiography,
 - , coronary, in Tetralogy of Fallot, 215
 - , coronary, digital video technology, 55
 - , occlusion, 181
 - , pediatric, trauma, 153
 - , peripheral vascular disease, 400
 - , preoperative,
 - , —, for aortic rupture, 194
 - , —, in diabetics, 181
 - , vertebral artery in rabbits, 285
- Angioplasty,
 - , ergotism simulating restenosis after, 21
 - , intraoperative, 8
 - , transluminal,
 - , —, femoropopliteal artery, 272
 - , —, mesenteric vein, 43
- Aorta,
 - , abdominal, PTA, 129
 - , MRI, 24
 - , rupture, 194
- Aortic annular aneurysm, MRI, 188
- Aortic arch rupture, 194
- Aortic bifurcation, PTA, 129
- Aortic dissection, CT and angiographic diagnosis, 138
- Aortocaval fistula, MRI, 24
- Aortoesophageal fistula, CT, 84
- Arterial portography, Prostaglandin E₁, 264
- Arteriography,
 - , balloon occlusion angiographic techniques, 181
 - , hepatic, 75
 - , trauma to extremities, 202
- Arteriovenous fistula, trauma, 202
- Arteriovenous malformation,
 - , definition and classification, 53
 - , pelvic, CT, 96
- Artery,
 - , carotid,
 - , —, internal, pseudoaneurysm, 147
 - , —, PTA, 142
 - , —, tumor, Doppler ultrasound, 280
 - , coronary, anomalies, 215
 - , femoropopliteal, occlusion, 272
 - , hepatic, embolization, 80
 - , iliac,
 - , —, percutaneous recanalization, 16
 - , —, rupture, PTA, 276
 - , innominate, PTA, 142
 - , peripheral, transluminal intraoperative angioplasty, stenosis, grafts, 8
 - , pulmonary, stenosis simulated, 237
 - , renal, reconstructed, DSA, 205
 - , splenic, embolization, 291
 - , subclavian,
 - , —, aberrant, 150
 - , —, aberrant right, ruptured aneurysm, 13
 - , —, aneurysm and embolization, 134
 - , —, PTA, 123
 - , thyroid, inferior, 150
 - , vertebral,
 - , —, angiography in rabbits, 285
 - , —, PTA, 142
- Atrial thrombi, echo diagnosis, 157
- Axillary-subclavian vein, thrombolysis, 92
- Balloon dilatation,
 - , double balloon, 129
 - , pulmonary artery, 237
- Balloon occlusion, iliac artery rupture, 276
- Bile ducts, iatrogenic injury,
 - , percutaneous drainage and balloon dilatation, 28
- Biliary calculi, balloon aided extraction, 295
- Biliary drainage, percutaneous transhepatic, 303
- Biliary enteric fistula, 28
- Biliary obstruction, catheter treatment, 175
- Biopsy, percutaneous, CT-guided, 301
- Blood flow, quantification with digital techniques, 59
- Bullseye polar map, nuclear myocardial perfusion imaging, 374
- Cardiac catheterization,
 - , simulated pulmonary stenosis by azygous catheter, 237
- Cardiac function, quantitation, MRI, 365
- Cardiac imaging, quantitation, 316
- Carotid artery,
 - , PTA, 142
 - , tumor, Doppler ultrasound, 280
 - , internal, pseudoaneurysm, 147
- Catheter,
 - , balloon, with prostaglandin E₁ in evaluation of portal vein, 264
 - , balloon occlusion angiographic technique, 181
 - , central venous, repositioning, 234
 - , Cope loop retention, 175
 - , Olbert, complication, 168
 - , Swan-Ganz, complication, 171
- Catheterization,
 - , adrenal vein, 86
 - , biliary, 175
 - , complication, technology, Cope introductory set, 109
- Cerebrovascular disease, 142
- Cerebrovascular occlusion, experimental in rabbits, 285
- Chemotherapy, arterial hepatic, control by digital angiography, 71
- Coil,
 - , Gianturco, 226
 - , steel, hepatoportal fistula, 75
- Computed tomography,
 - , aortoesophageal fistula, 84
 - , defective grafts, 230
 - , guidance for biopsy, 301
 - , left ventricular wall motion, 5
 - , lower extremity, swelling, 261
 - , mesenteric vein aneurysm, 269

- , pelvic AV malformations, 96
- , pericardial effusion, 162
- , ruptured aneurysm, aberrant right subclavian artery, 13
- , ultrafast, LV function, 348
- , vascular, 230
- Computer image processing, 316
- Congenital heart disease, echocardiography, 332
- Contrast media, interaction with ethanol, 219
- Coronary angiography, digital video technology, 55
- Coronary artery, anomalies, 215
- Coronary heart disease, ultrafast CT, 348
- Coronary vessels, transluminal angioplasty, 55
- Digital angiography, cardiac, use of Fourier transform, 59
- Digital subtraction angiography,
 - , chemotherapy, 71
 - , reconstructed renal arteries, 205
 - , vascular access for hemodialysis, 210
- Digital video coronary arteriography, 55
- Echocardiography,
 - , pericardial effusion, 162
 - , quantitation, 316
 - , —, CHD, 332
 - , 2-dimensional, intracardiac masses, 157
- Embolism, pulmonary, 104
 - , filter misplacement, 37
 - , from ovarian venous aneurysm, 100
- Embolization,
 - , AV malformations, 80
 - , coil,
 - , —, left spermatic vein, 258
 - , —, mycotic aneurysm, 198
 - , —, selection, 226
 - , complications of ethanol, 219
 - , hepatoma, 40
 - , hepatoportal fistula, 75
 - , internal carotid artery, 147
 - , pediatric patient, 153
 - , pelvic AV malformation, 96
 - , renal, complications, 219
 - , splenic, Gelfoam, 291
 - , steel coils and thrombin, 134
 - , therapeutic, Ivalon failure, 111
- Epicardial pacing electrodes, cause of abnormal wall motion, 5
- Ergotism, simulating restenosis, 21
- Esophagus, hemorrhage, 84
- Ethanol, interaction with contrast media, 219
- Femoropopliteal artery, occlusion, 272
- Filter misplacement, vena cava, 37
- Filter retrieval, vena cava, 32
- Filter, vena cava, 104
- Fistula,
 - , aortocaval, MRI, 24
 - , aorto-esophageal, CT, 84
 - , arteriovenous, trauma, 202
 - , biliary enteric, 28
 - , hepatoportal, 75
- Graft, defective synthetic, CT, 230
- Graft occlusion, vascular, 43
- Heart,
 - , aortic annular pseudoaneurysm, MRI, 188
 - , function, quantitation, MRI, 365
 - , LV volume, respiratory effect, 65
 - , LV volume and mass, MRI, 1
 - , LV wall motion, Cine CT, 5
 - , measurement and function, MRI, 356
- Hemangioma, definition, 53
- Hemodialysis, vascular access, DSA, 210
- Hemorrhage,
 - , intramuscular, 261
 - , posttraumatic treatment in children, 153
- Hepatic artery, embolization, 80
- Hepatoma complicated by obstructive jaundice, 40
- Hepatoportal fistula, embolization, 75
- Hydronephrosis, solitary kidney, 223
- Iliac artery,
 - , percutaneous recanalization, 16
 - , rupture, PTA, 276
- Iliac vein, external compression, 89
- Innominate artery, PTA, 142
- Interventional radiology,
 - , future growth, 245
 - , premedication, 247
 - , promotion, 245
- Intracardiac masses, 2-dimensional echocardiography, 157
- Ivalon, embolization of hepatic AV malformation, 80
- Kidney,
 - , agenesis, 223
 - , percutaneous nephrostomy, 109, 223
 - , stone extraction, 223
- Knee joint effusion, 261
- Left ventricular function, CT, quantitation, 348
- Left ventricular volume, respiratory effect, 65
- Left ventricular wall motion, Cine CT, 5
- Limb salvage procedures, surgical in-situ venous grafts, 181
- Liver,
 - , metastasis, 303
 - , neoplasm, angiographic diagnosis, 264
- Lower extremities, venous thrombosis, CT, 261
- Magnetic resonance,
 - , aortic annular pseudoaneurysm, 188
 - , aortocaval fistula, 24
 - , cine, cardiac function, 365
 - , comparison with biplane angiocardiology, 1
 - , heart, 356
 - , left ventricular volume and mass, 1
 - , peripheral vascular disease, 400
 - , portal vein, 254
- May-Thurner syndrome, variation, 89
- Mediastinum, aortic rupture, 194
- Mesenteric vein,
 - , aneurysm, CT and ultrasound, 269
 - , transluminal angioplasty, 43
- Myocardial abscess, MRI diagnosis, 188
- Myocardial perfusion, 374
 - , digital analysis, 59
- Needle aspiration, CT-guided technique, 301
- Non-chromophil paraganglioma, echo diagnosis, 280
- Obstructive jaundice, 303
 - , hepatoma as etiology, 40
- Ovarian vein, aneurysm, 100
- Pain, splenic embolization, 291
- Parathyroid arteriography, 150
- Pediatric angiography, trauma, 153
- Pelvic arteriography, 96

- Percutaneous recanalization, iliac artery, 16
Percutaneous retrieval, Swan-Ganz catheter, 171
Percutaneous transhepatic biliary drainage, 303
Percutaneous transluminal angioplasty,
—, abdominal aorta, 129
—, carotid artery, 142
—, catheter complication, 168
—, iliac artery rupture, 276
—, innominate artery, 142
—, subclavian artery, 123
—, vertebral artery, 142
Pericardial effusion, diagnosis, 162
Peripheral vascular disease, quantitation, 400
Polyarteritis nodosa, venous thrombus as complication, 254
Polyvinyl compounds, failure in permanent occlusion, 111
Portal vein, MRI, 254
Prostaglandin E₁, use in angiography, 264
Pseudoaneurysm,
—, aortic annular, MRI, 188
—, internal carotid artery, 147
—, trauma, 202
Pulmonary artery, stenosis simulated, 237
Pulmonary embolism, 104
—, filter misplacement, 37
—, from ovarian venous aneurysm, 100
Quantitation,
—, blood flow, 59
—, cardiac dimensions, MRI, 356
—, cardiac function, MRI, 365
—, echocardiography, 316
—, —, CHD, 332
—, LV function, CT, 348
—, myocardial perfusion,
—, —, SPECT, Tl-201 scintigraphy, Tl-201 tomography, 374
—, peripheral vascular disease
—, —, angiography, Doppler, videodensitometry, MRI, 400
—, radionuclide angiocardiology, 384
Quantitative contrast angiocardiology, effect of respiration, 65
Radionuclide scintigraphy, comparison with digital angiography, 71
Radionuclide ventriculography, diagnosis, 384
Renal artery, reconstructed, DSA, 205
Renovascular hypertension, diagnosis, 205
Respiration, effect on LV assessment, 65
Scintigraphy, Tl-201, myocardial perfusion, 374
Sedation, intravenous, monitoring for angiography, 247
Spermatic vein, left, coil embolization, 258
Splenic artery, embolization, 291
Splenomegaly, catheter therapy, 291
Stone retrieval techniques, biliary, 295
Streptokinase,
—, use in femoropopliteal occlusion, 272
—, use in venous thrombosis of upper extremity, 92
Stroke model, rabbits, 285
Subclavian artery,
—, aberrant, 150
—, aberrant right, ruptured aneurysm, CT, 13
—, aneurysm and embolization, 134
—, PTA, 123
Subclavian steal syndrome, 123, 142
Telangiectasia, hereditary hemorrhagic, use of embolization, 80
Tetralogy of Fallot, coronary anomalies, 215
Therapeutic embolization, Ivalon failure, 111
Thoracic aorta, diagnosis of rupture, 194
Thromboembolic stroke, experimental in rabbits, 285
Thrombolysis,
—, axillary-subclavian vein, 92
—, occluded femoropopliteal artery, 272
Thrombosis, vena cava, 32
Thyroid artery, inferior, 150
Tomography, quantitative, rotational Tl-201, 374
Tonsillectomy, complication, 147
Transcatheter embolization, liver, 75
Trauma,
—, pediatric angiography, 153
—, penetrating, arteriography, 202
Tumor,
—, carotid artery, duplexsonography, 280
—, growth in biliary catheter tract, 303
Ultrafast CT, LV function, 348
Ultrasound,
—, Doppler,
—, —, cardiac imaging, 316
—, —, carotid artery tumor, 280
—, —, CHD, 332
—, mesenteric vein aneurysm, 269
Valve regurgitation, MRI, 365
Varicocele, embolization, 258
Vascular access for hemodialysis, DSA, 210
Vascular evaluation, non-invasive, 400
Vein,
—, adrenal, catheterization, 86
—, axillary-subclavian, thrombolysis, 92
—, central catheter repositioning, 234
—, iliac, external compression, 89
—, left spermatic, coil embolization, 258
—, ovarian, aneurysm, 100
—, portal, MRI, 254
—, mesenteric,
—, —, aneurysm, CT and ultrasound, 269
—, —, transluminal angioplasty, 43
Vena cava,
—, abnormalities, 254
—, diagnosis of obstruction by MRI, 254
—, filter misplacement, 37
—, filter retrieval, 32
—, inferior,
—, —, filter, 104
—, —, left-sided, 258
—, thrombosis, 32
Venography,
—, spermatic, 258
—, technique, 86
Ventricular thrombi, echo diagnosis, 157
Ventricular volume and mass, MRI, 1
Vertebral artery,
—, angiography in rabbits, 285
—, PTA, 142
Videodensitometry, peripheral vascular disease, 400
